1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 7 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Viola (4,949,051). Viola discloses an input (26) for receiving an uncompressed (encoded) digital optical signal and outputting a corresponding electrical signal. A reclocker (40) for receiving and synchronizing the electrical signal and outputting a synchronized data signal. It is well known in the art to include video signal in optical communication signal since video signal is commonly used in internet, broadcasting and many other communication medium. It is also well known in the art to use coaxial cable to transmit electrical signal since the coaxial cable maximize the transmission of the electrical signal energy and minimize frequency distortion and interference with external environment. Regarding claim 9, all of the features of the power regulator in claim 9 is a conventional power regulator and commonly used in communication system.

3. Claims 8 and 10-12 recite the limitation "said second equalized signal" in claim 8, lines 5-6. There is insufficient antecedent basis for this limitation in the claim.

4. Claims 1-6 and 13-18 are allowed.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2633

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
